ROSPIN ACADEMY

Lifecycle of a Space Mission

CERTIFICATE OF ACHIEVEMENT

This Certificate of Achievement is awarded to

Alexia-Ioana Oprisan

for the performance demonstrated when completing the quizzes and the final assigment from ROSPIN Academy - Lifecycle of a Space Mission (LSM).

Throughout this course, the Certificate Holder has gained technical knowledge about the typical phases of space missions, including feasibility studies, orbital mechanics and mission planning, systems engineering, design of payload and spacecraft subsystems, manufacturing, assembly and testing, as well as spacecraft launch and operations.

The recipient has demonstrated dedication and commitment to develop a multi-disciplinary expertise in space systems engineering.
